PROFESSIONAL SUMMARY

QA Automation & Data Quality Engineer with **2 years** of hands-on experience designing and deploying **scalable automated testing frameworks** using **Python, Playwright, and SQL**. Proven track record in accelerating release velocity, reducing manual regression execution time by **75%**, and integrating **parallel test suites** directly into **CI/CD deployment pipelines**. Certified in **Playwright Python Automation Testing and Data Engineering (Grade A)** by **TCS iON & ISI Kolkata**, combining software quality assurance rigor with advanced **REST API testing, schema validation, and backend database integrity verification**.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science

Kalpataru Institute of Technology — Affiliated with Visvesvaraya Technological University (VTU)

Tiptur, Karnataka | Graduated **2024** | CGPA: **7.8 / 10.0**

PROFESSIONAL EXPERIENCE

IDS Next Business Solutions Pvt Ltd | *Quality Assurance Engineer* | Sep 2024 – Present

- UI Automation Coverage:** Engineered and maintained **85+ scalable UI automation test suites** using **Python** and **Playwright**, expanding overall enterprise UI test coverage by **40%**.
- CI/CD & Process Optimization:** Transitioned **45 complex manual customer scenarios** into automated **CI/CD checks**, slashing manual regression execution time by **75%** (from **2 days to 4 hours**).
- Backend & API Validation:** Automated backend data logic and functional verification for **60+ REST API endpoints** using **Python scripts, Postman, and SQL queries**, cutting verification cycles by **50%**.
- Defect Lifecycle & Agile:** Logged, tracked, and verified **150+ automated test failures** and software defects using **JIRA**, increasing defect resolution velocity by **30%** within **Agile sprint releases**.
- Production Quality Delivery:** Executed rigorous automated test runs across enterprise web modules (**Material Management Systems**), driving a **25% drop** in post-release bugs across **15 major release cycles**.

CORE COMPETENCIES & TECHNICAL SKILLS

Programming & Databases: Python, SQL (MySQL), HTML, JSON

Automation & Tools: Playwright, Pytest, Requests, Postman, PyMySQL, Docker, Git

Testing Methodologies: UI Test Automation, REST API Testing, Backend Data Integrity, Regression & Smoke Testing

DevOps & Process: CI/CD Pipeline Integration, Page Object Model (POM), JIRA Defect Lifecycle, Agile/Scrum

TECHNICAL PROJECTS

Automated Web UI Testing Framework | *Python, Playwright, Pytest, Git, Docker*

- Framework Architecture:** Architected a modular **Page Object Model (POM)** UI framework from scratch leveraging **Python, Pytest**, and **Playwright**, covering **100+ E2E test cases** across **Chromium, Firefox, and WebKit** engines.
- Parallel Execution & CI/CD:** Configured multi-threaded parallel test execution via **pytest-xdist** integrated directly into **CI/CD deployment pipelines**, cutting overall suite execution duration by **60%**.
- Reporting & Debugging:** Developed **dynamic fixtures, visual assertions**, and automated **HTML execution reports** with failure screenshot capture, accelerating root-cause triage time by **40%**.

API Automated Test Suite & Data Pipeline Validator | *Python, PyMySQL, REST API, Postman, MySQL*

- Backend Automation Engine:** Developed a data-driven testing utility using Python's **requests** library to automate **50+ RESTful API endpoints**, verifying **dynamic JSON payloads, HTTP status codes**, and **OAuth authentication tokens**.
- Database Integrity Verification:** Implemented **PyMySQL** handlers to execute **SQL validation queries**, cross-verifying API JSON responses directly against backend **MySQL database tables** to guarantee **100% data integrity**.
- Automated Health Dashboards:** Programmed continuous logging pipelines to record test execution metrics directly into **MySQL**, generating automated real-time backend health reports for engineering stakeholders.

CERTIFICATIONS & KEY CREDENTIALS

- Playwright PYTHON Automation Testing - From Zero to Expert** – Udemy / Rahul Shetty Academy (Issued July 2026)
- Data Engineering: The Foundation of AI (Grade A)** – TCS iON & IDEAS Hub, Indian Statistical Institute (ISI) Kolkata (Issued June 2025)
- Getting Started with Python Programming** – ISI Kolkata & TCS iON (Nov 2024 – Jun 2025)
